

## tetr.io Setup on School-Issued MacBooks

4.7.2022

In order to have a smooth playing experience, we recommend changing some settings to configure the site to be the best it can be and to give you the most potential while you play.

- I. Accessing the Site
  - A. Navigate to <https://tetr.io> on your browser of choice.
- II. Using an Account
  - A. We recommend using a tetr.io account to ensure that your settings are saved and to improve your multiplayer experience.
  - B. When you first load/refresh the website, you will be prompted to enter a username.
  - C. If you do not already have an account, enter the username you wish to register at this time. You will then be prompted to add a password and complete registration.
  - D. If you already have an account, enter the username of the account. You will be prompted to log in with your password.
- III. Configuring Settings for an Optimal Experience
  - A. On the site's main page, scroll down and click "config"
  - B. Navigate to the "Video & Interface" section.
  - C. Apply settings as shown in the following image:

- D. Optionally, you may choose the "Render at a Low Resolution" option to get the best possible performance at the cost of visual fidelity.
